FULBRIGHT TÜRKİYE

The Turkish Fulbright Commission or in other words, the Commission for Educational Exchange between the United States and Türkiye, was established by a binational agreement signed between Türkiye and the United States in 1949. The Commission started its activities in accordance with Law No. 5596 enacted by the Turkish Parliament on March 13, 1950.

The Commission supports Turkish and American graduate students, faculty members, teachers, artists and professionals through grants which include travel and living expenses. It also offers educational advising for Turkish students wishing to study in the U.S.A. Our Commission was founded to develop mutual understanding between the Turkish and American people through educational and cultural exchange.

The Commission Board and the Executive Director are the administrators of our Commission. The members of the Commission Board are assigned by the Turkish and American governments and they represent both countries.

Since the foundation of our Commission in 1949, funding has been provided by the governments of Türkiye and the United States; and has supported around 6,500 Turkish and American scholars. Turkish Fulbrighters return to Türkiye upon completion of their studies in the U.S.A. and work to serve their country. American scholars coming to Türkiye have made major teaching and research contributions in a variety of disciplines ranging from Science and Engineering to Business, History and Literature. Returning Fulbrighters from both countries often hold important positions in their academic institutions, public service, and in the private sector. Most participants maintain ties with their host country, thereby carrying out the goals of the Fulbright Program.

Our head office is in Ankara and there is a branch office in İstanbul.

IEFT - INTERNATIONAL EDUCATION FAIRS OF TURKIYE

Exhibitor short description: IEFT was founded in 2001 as an organization committed to bringing quality education providers together with motivated students and their families. Our aim is to create greater visibility for the many “study abroad” options available around the globe.

Every year, around 100,000 Turkish students choose to travel abroad for their education. Turkiye is a market that cannot be overlooked. And the IEFT exhibitions have proven to be the venue where prospective students and their families gather the valuable information required to make solid decisions for their futures.

In the changing economic climate, one thing remains consistent: the need for international educational partnerships, opportunities and exposure. Each year Turkiye sees over a million and a half Turkish students competing for only 700,000 entrance positions in post secondary institutions. Space restrictions in Turkiye's educational facilities are a major factor contributing to Turkiye's large education export. This year, along with China and South Korea, Turkiye was featured as one of the largest growing student markets, a market which IEFT is happy to be a part of.

ZISTA EDUCATION SERVICES LLP

Exhibitor short description: At Zista we specialize in customizing and executing projects that increase brand awareness and propel student & institutional outreach. We do not follow the typical agency model and work holistically through our subject specific-higher education events, digital marketing, in-country support and focused projects for research and exchange collaborations in the sub-continent and beyond
